## Barack Obama is not seeking "legacy"

To the many gullible souls out there who truly think that Barack Obama is "legacy building" in his all-out assault on America, I implore you to bow out of the conversation because you are not seeing clearly.

The term *legacy* carries positive connotations of something bequeath that is to the receiver's benefit. Everything that Barack Obama does is calculated to destroy America, which he despises. This man no more cares about legacy than he fears being properly prosecuted by the white political leaders whose responsibility it is to remove him from office.

I focus on white leaders, because whites are still in the majority and they fill the majority of political offices. If the majority of political operatives were of some other ethnicity, I would lodge my complaint against that group. Ethnicity is an issue only because Obama is half-black and he uses that fact to intimidate guilt-conflicted white people. Otherwise, he would have been impeached and likely in prison for treason by now.

Barack Obama's sole aim has been, since he first entered politics and continues as he winds down this presidency, the complete destruction of America as it was founded.

It is an insult to the intelligence of all Americans who must listen to elitist pundits on Fox news and elsewhere, and political drones in either party endeavor to make Obama's behavior fit a pattern of normalcy. Attributing his destructive policies to "legacy building" is either self-delusion on the part of the people who make that claim or cowardliness.

This is my take.

Obama's nuclear deal with Iran has nothing to do with legacy but rather to enable a Muslim nation to wage nuclear war with America and Israel – the two nations that he most despises. Does anyone wonder why Russians praise Vladimir Putin despite what the rest of the world might think of him? Putin cares about his country, that's why.

Obama despises the American military because traditionally it has been a mainstay of America's strength,

and our strength infuriates him.

Imposition of a polluting homosexual, anti-Christian agenda upon the military ranks destroys unit cohesion and literally terrorizes male members with the prospect of sodomy rape. Such rapes have increased since the forcing of open homosexuality in the ranks, against the will of a majority of members I might add. Couple that with an infiltration of women, for whom all standards of strength must be reduced, and Obama attains his goal of emasculating and demoralizing the forces.

He could not care less about a legacy of making the forces more diverse. Besides, President Truman diversified the military as much as it should be when he integrated it. Obama's objective is its destruction.

Obama reopened relations with Cuba because Cuba is Communist. Legacy is not his concern here either, but rather to scuttle America's attempts to keep Communist influence out of the Americas. That Cuba has major issues with human rights does not matter. Like his Marxist African father before him, he despises the West and all that it represents.

Obama lawlessly declares open borders and amnesty for illegal aliens, because he wants to overrun America with third-world people who bring little more than dependency with them. This tactic not only does not ensure a legacy, but rather it guarantees the eventual conversion of America itself into third-world status, if it is allowed to continue.

Bill Clinton started the travesty of increasing the numbers of third-world immigrants at the expense of culturally more suited immigrants from European and European-influenced nations, but Obama has taken the trend to lawless, destructive extremes. He is fully aware that many of these invaders have no intention of assimilating.

It is only the outcry of a majority of Americans that holds back this hateful invasion scheme, and Donald Trump's entry onto the political scene to oppose that scheme is a saving grace for our nation.

These are but a few instances of behavior that display the loathsome character of Barack Hussein Obama. And he is allowed to roam freely through the American landscape poisoning and polluting as he goes, sure in the realization that no one will stop him because he is "black."

The day that we no longer have to hear the prattle about his "legacy building" will not be soon enough for me.

Many, many Americans are thoroughly fed up with Barack Obama and the spineless crop of political leaders who ignore his criminality. It is yet unknown whether Republicans will ever garner the backbone to become a true opposition party and hold him accountable. Promising signs are the House conservatives' getting rid of establishment types John Boehner and Kevin McCarthy as House Speaker and Speaker hopeful, respectively, and Donald Trump's entry into the 2016 presidential race with enough money and testicular fortitude to tell the Establishment and the Left where to shove it.

Should these positive trends not continue and the 2016 election cycle yield no movement to counter all the harm that Barack Obama has done to this nation, I think there will be massive disruption. Those folks in the National Rifle Association ads currently running on television seem very serious to me, and that is a good

thing.
